

Quickly Fill Cartridges Up to 11" Tall

Tridak® Model 2200 Extended

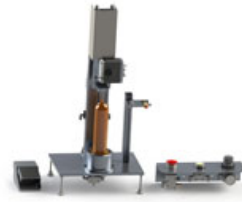

We've redesigned the Tridak® Model 2200 cartridge filling system for those in need of greater height for their filling projects. Now available in a 32" tall extended version, the new Tridak Model 2200 Extended accommodates cartridges up to 11" tall. This new system works with most single- and dual-barrel cartridges from Sulzer, Semco, Nordson EFD, Fishman, Techcon, Plas-Pak, and more.

Speed Up Your Manual Syringe Filling Process

The Tridak Model 1060 filling system is designed to fill syringes and cartridges, one at a time, quickly and accurately from a material reservoir. The system is manually loaded and unloaded, making it ideal for low-volume production or as an alternative to filling syringes manually. [Find out more...](#)

Last Call... Place Your Orders Now to Receive Filling Systems by Year End

With the end of the year fast approaching, we want to remind everyone to place their orders now if the system is needed before the new year. Our standard lead time is 10 weeks for some filling systems. [Request a quote today.](#)

Seeking Distributors/Sales Partners

Tridak is currently seeking distributors/sales partners for our filling product line. Please [contact us](#) if you're interested in selling these products for us.
