[Tridak® Model 3200 Piston Inserter](#) by Dymax is Now CE Marked

*A Great Alternative to Manually Inserting Pistons is Now Available Globally*

Torrington, Connecticut – April 25, 2016... [Dymax Corporation](#) has announced the CE marking of its [Tridak® Model 3200 Piston Inserter](#), making this automatic air-bleed system available in Europe and other regions.

[Tridak® Model 3200 Piston Inserter](#) allows operators to insert pistons into cartridges and syringe barrels accurately and quickly. Unlike manual piston insertion, it achieves consistent piston insertion depth and alignment leading to exact ratios when the product is dispensed. The [Model 3200](#) eliminates trapped air and is easily adjustable to accommodate both single and dual cartridges and syringes.

With a dual-hand actuation trigger for operator safety, the [Model 3200](#) is universally sized for compatibility with cartridges and syringe barrels up to 500 mL. Its short cycle time of 1-3 seconds helps manufacturers achieve savings in time and labor. For more information visit <http://www.tridak.com/index.php/technical-support-form>.

Dymax Corporation develops innovative oligomer, adhesive, coating, dispensing, and light-curing systems for applications in a wide range of markets. The company's products are perfectly matched to work seamlessly with each other, providing design engineers with tools to dramatically improve manufacturing efficiency and reduce costs. Major markets include aerospace, appliance, automotive, electronics, industrial, medical device, and metal finishing.
